

Custom Fulfillment and Integration

Redapt delivers a wide range of turnkey data center solutions – from configured servers, storage, and networking products to custom-integrated and racked solutions. With little additional effort, every solution is ready for deployment the moment it arrives at the data center.

WHAT WE DO

Source: Thanks to our multiple sources, we focus on delivering your order quickly and at the highest possible value.

Stock: Because we stock product at our facility, we turn around orders in a matter of minutes instead of weeks.

Configure: Our independence and range of sources gives us the ability to configure multi-vendor solutions to your exact specifications. The combinations of hardware, software, operating systems, and rack configurations are endless.

Deliver: Complex solutions are integrated and tested at our site and delivered to you ready to power up and use.

BENEFITS OF WORKING WITH REDAPT

Technology fulfillment from a well-established provider who excels at both vision and execution

Immediate value from your IT assets – no need for skilled staff to spend precious hours configuring, testing, and installing hardware

Quick fulfillment of even the most complex solutions from our well stocked facility to help you launch projects ahead of schedule

"From start to finish, Redapt made our project a success by introducing innovative technologies and delivering fully integrated racks ahead of schedule."

-Mark Stockford, VP of Production Operations, Zynga
